**DETAILED ACTION**

***Reissue Applications***

1. This application is objected to under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent. The consent of the assignee must be in compliance with 37 CFR 1.172. See MPEP § 1410.01.

A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73 is required in reply to this Office action.

The statement under 37 CFR § 3.73 (b) is improper. Applicant has checked 2. A. box, but has not completed the reel and frame number, as required to complete the 3.73 (b) statement. Since the assignment is of record in the PTO, the reel and frame number should be provided. Applicant has provided a copy of the assignment, but the assignment has not been notarized. In the instant application, there is no Assent of the Assignee ( consent of Assignee – see PTO/SB/53). MPEP 1410.01, 37 CFR 1.172 (a).

2. This application is objected to under 37 CFR 1.172(a) as the assignee has not established its ownership interest in the patent for which reissue is being requested. An assignee must establish its ownership interest in order to support the consent to a reissue application required by 37 CFR 1.172(a). The assignee's ownership interest is established by:

(a) filing in the reissue application evidence of a chain of title from the original owner to the assignee, or

(b) specifying in the record of the reissue application where such evidence is recorded in the Office (e.g., reel and frame number, etc.).

The submission with respect to (a) and (b) to establish ownership must be signed by a party authorized to act on behalf of the assignee. See MPEP § 1410.01.

An appropriate paper satisfying the requirements of 37 CFR 3.73 must be submitted in reply to this Office action.

3. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

In the instant application, removing subject matter from a claim ("unmodified"), regardless of the reason for the removal, may be broadening of the claims, and thus make it a broadening reissue application and thus requires oath/declaration signed by inventor, not by the assignee.

4. Claims 1 – 14 are rejected as being based upon a defective reissue oath under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the oath is set forth in the discussion above in this Office action.
